SAFETY ALERT	NO. 10	08/11/19
---------------------	---------------	-----------------

MANDATORY

- **Airplanes affected:**

Savage Bobber s/n: 343
Savage Cub s/n: 354

- **Subject:**

Rudder control cables

- **Reason :**

Due to our internal tests we found out that one batch of swages could have been misused .

For this reason we issue a mandatory change of the rudder control cables on planes with these serial numbers (Bobber s/n 343, Cub s/n 354) .

Planes with these serial numbers cannot be used and flown until the new cables will be supplied and changed .
